

MARITIME

WE ARE SPECIALIZED IN;

ENGINEERING

DREDGING

PILE DRIVING

COFFERDAM

ABOVE and UNDER WATER STRUCTURES

BREAKWATER

MARINE SURVEY and EXPLORATION

MARINE CARGO TRANSPORTATION

BEACH NOURISHMENT

COMPANY PROFILE

We are a group of skilled engineers experienced in near shore and offshore construction.

We have accumulated a significant amount of achievements and non-zero amount of failures during our professional careers. Now, it is time to channel these experiences into contracting field.

Apart from dredging activities, our service includes construction of:

- ✦ PORTS
- ✦ HARBOURS
- ✦ WHARF
- ✦ BERTH/QUAY
- ✦ MARINA
- ✦ UNDERWATER PILE DRIVING
- ✦ COMBI-WALL
- ✦ COFFERDAM
- ✦ BREAKWATER
- ✦ BRIDGE PIERS
- ✦ BEACH NOURISHMENT

The company intends to diversify its abilities through its experienced team and innovative equipment.

Company Mission

Deliver safe, cost-effective and sustainable projects with engineering backgrounds and satisfied clients.

Company Vision

Become essential to our customers by providing differentiated services related to marine engineering.

Project Name:	Sakarya Gas Field Development- 2nd Phase
Client:	Aras Marine Construction
Location:	Zonguldak / TURKEY
Scope:	Construction and dismantling of cofferdam
Driving and extraction of:	560 no's sheet piles 401 no's tubular piles
Commencement:	March, 2024
Completion:	September, 2024

Project Name:	Dredging of jetties
Client:	Akre Marine
Location:	Tekirdağ / TURKEY
Scope:	120.000 m ³ dredging Target depth: -16,00m
Driving and extraction of:	560 no's sheet piles 401 no's tubular piles
Commencement:	August, 2023
Completion:	June, 2024

Project Name:	Sfax Desalination Plant
Client:	Aras Marine Construction
Location:	Sfax / TUNUSIA
Scope:	Technical Consultancy Construction of cofferdam consisting 1.696 no's AZ double sheetpiles Supply of piling equipment
Driving and extraction of:	560 no's sheet piles 401 no's tubular piles
Commencement:	March, 2023
Completion:	September, 2023

COMPLETED MAJOR PROJECTS

Project Name:
Sfax Desalination Plant

Project Name:	1915 Çanakkale Bridge
Client:	Kurt Construction
Location:	Çanakkale / TURKEY
Scope:	Breakwater construction Supply of long reach excavator
Commencement:	February, 2023
Completion:	June, 2023

COMPLETED MAJOR PROJECTS

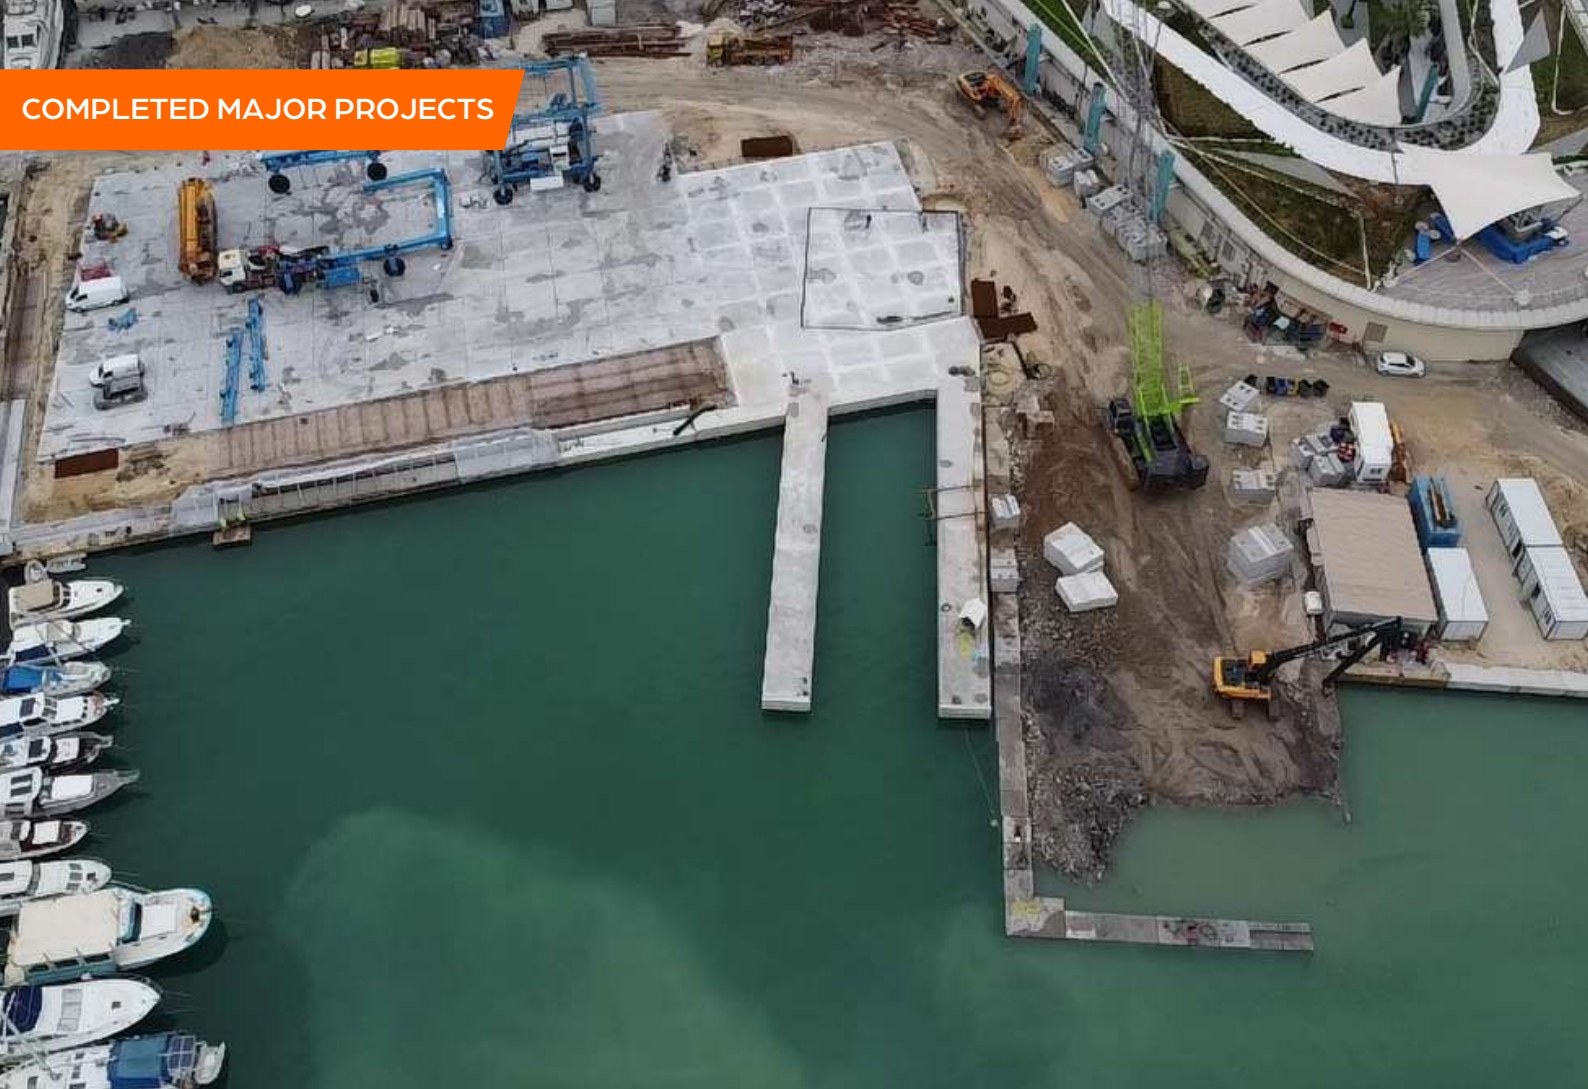

Project Name:
1915 Çanakkale Bridge

Project Name:	Setur Kuşadası Marina
Client:	Erkport Port Services and Logistics
Location:	Kuşadası / TURKEY
Scope:	Dredging Driving of steel tubular piles Construction of jetties Construction of quaywall Production and installation of concrete blocks Installation of armour rocks PDA tests
Commencement:	January, 2023
Completion:	June, 2023

COMPLETED MAJOR PROJECTS

Project Name:
Setur Kuşadası Marina

Project Name:	Capital Dredging of Beşiktaş Shipyard
Client:	LCM Rota Marine
Location:	Yalova / TURKEY
Scope:	Dredging of jetties
Commencement:	October, 2022
Completion:	November, 2022

Project Name:	Sakarya Gas Field Development – 1st Phase
Client:	Aras Marine Construction
Location:	Zonguldak / TURKEY
Scope:	Construction and dismantling of cofferdam Driving and extraction of: 478 no's sheet piles 326 no's tubular piles
Commencement:	March, 2022
Completion:	November, 2022

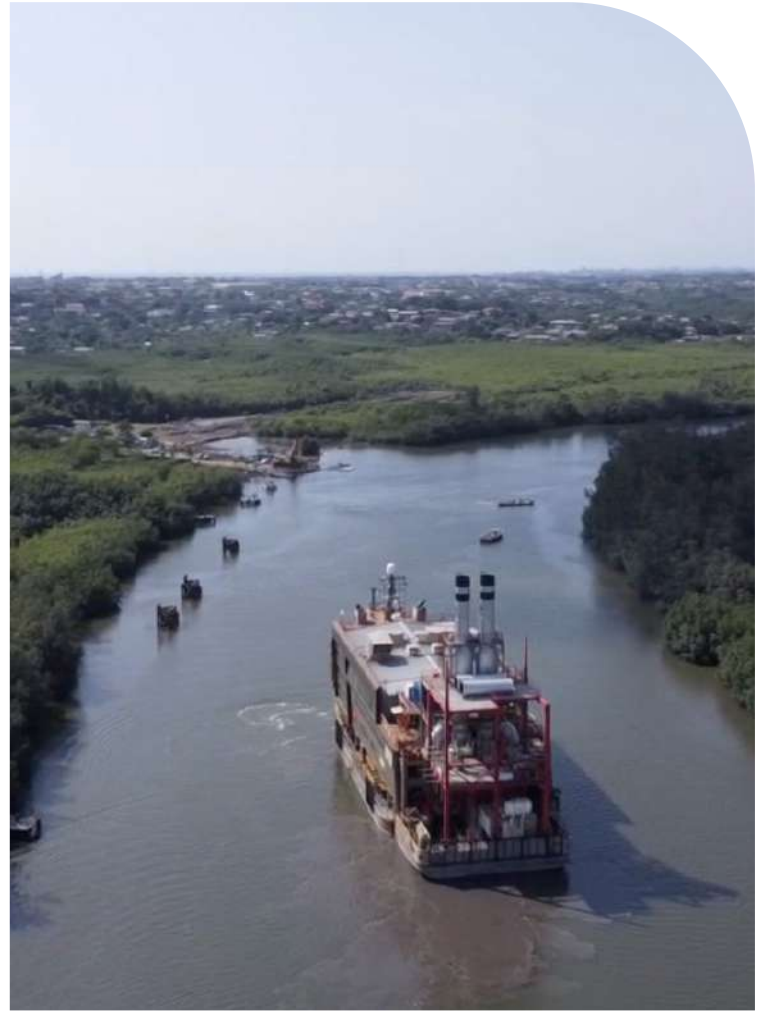

COMPLETED MAJOR PROJECTS

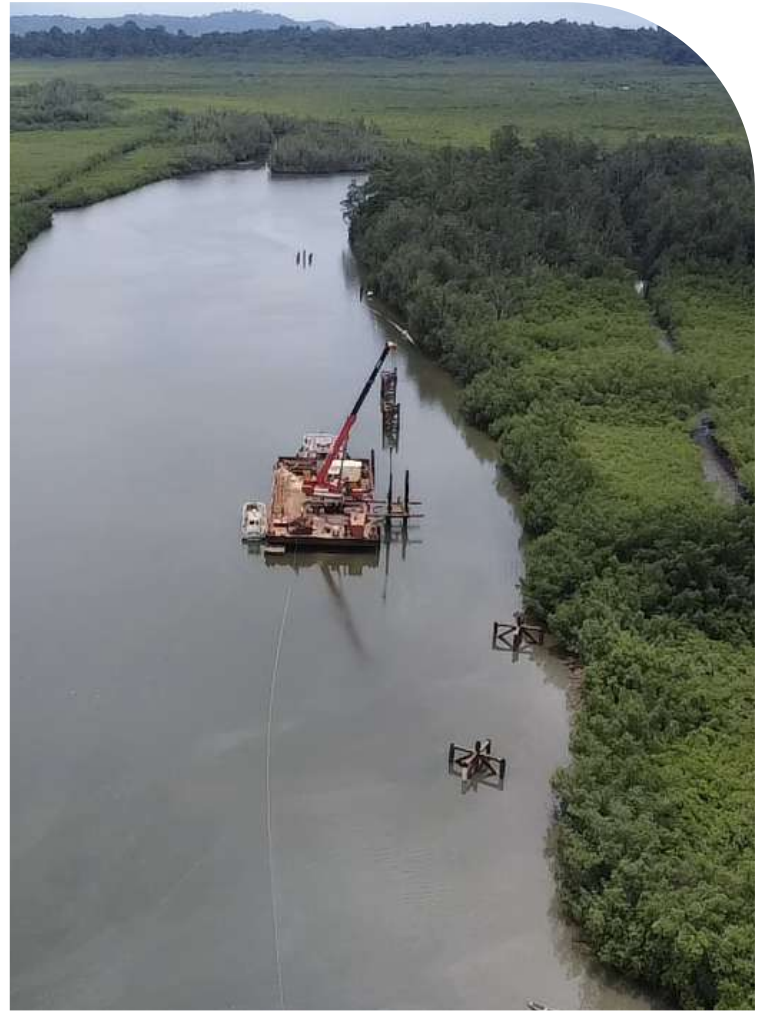

Project Name:
Sakarya Gas Field Development

Project Name:	Dredging of Channel 1&2 in Varna
Client:	Instroy EOOD
Location:	Varna / BULGARIA
Scope:	Dredging of utility channels in Varna Lake
Commencement:	September, 2021
Completion:	August, 2022

Project Name: Dredging Work for Floating Energy Plants
Client: KARPOWER
Scope: Dredging Management
Survey Management
Supply of survey system for Cutter Suction Dredger
Bathymetry
Location: Owendo / Gabon
Commencement: June, 2024
Completion: November, 2024

Project Name: Construction of Mooring Dolphins and Breasting Dolphins for Floating Energy Plants

Client: KARPOWER

Scope: Design of dolphins
Construction Management for Piling Works

Location: Owendo / Gabon

Commencement: June, 2024

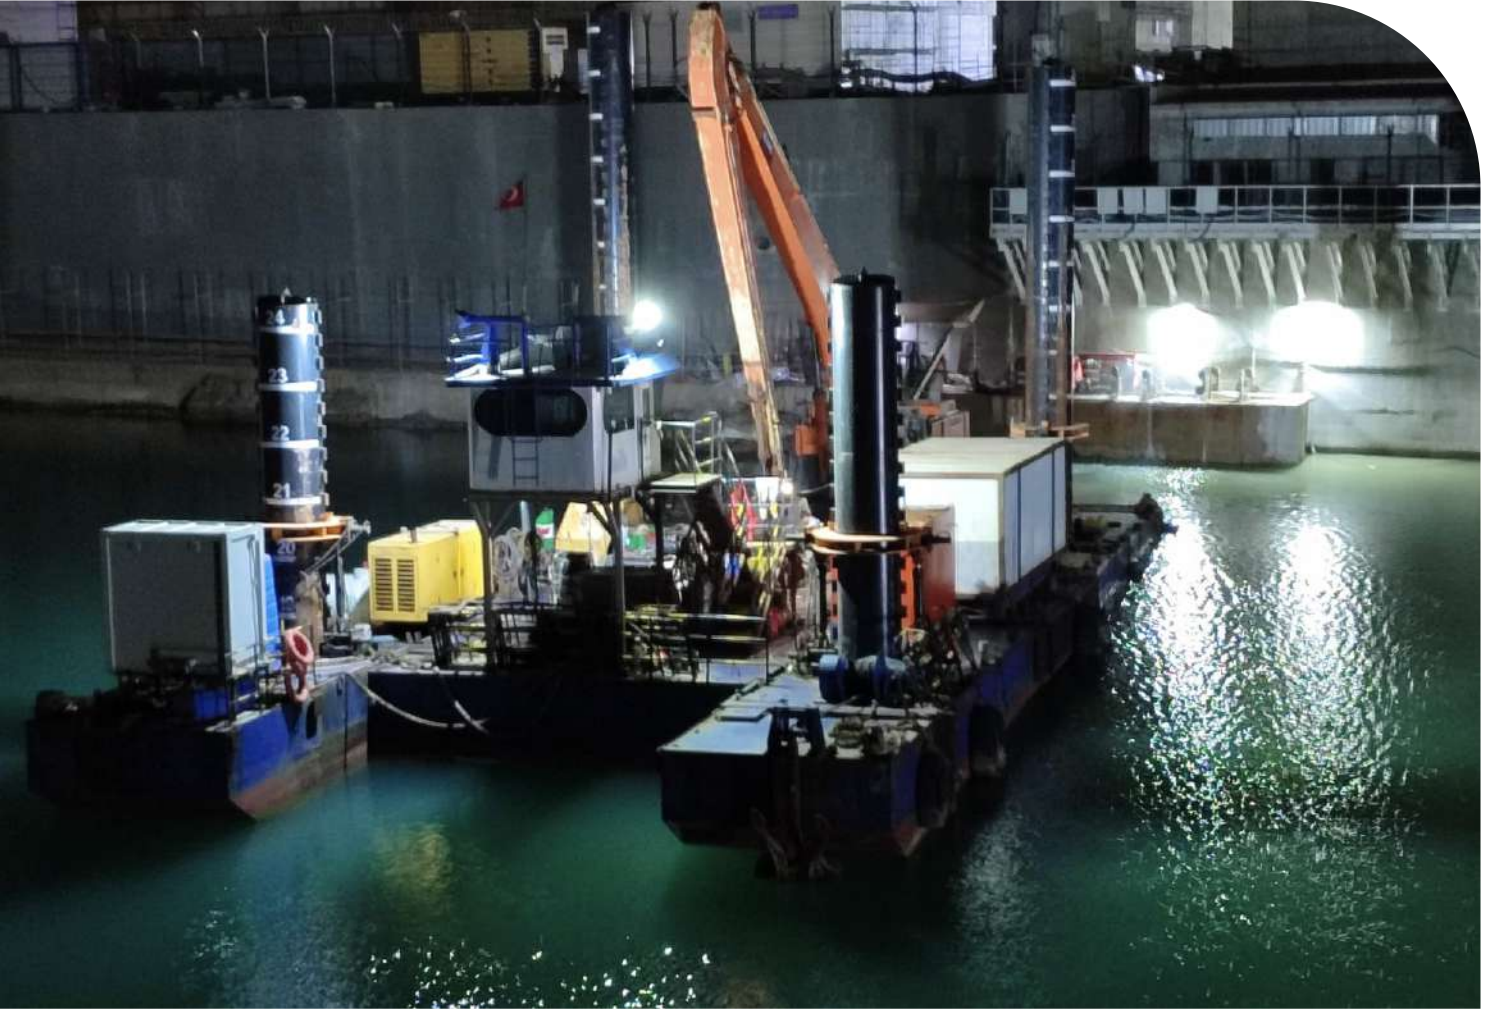

Completion: November, 2024

Project Name: Kumport Current Pier-3 Repair and Strengthening Work
Client: Kumport
Contractor: Covic
Subcontractor: Maritime Engineering
Location: Ambarlı Port, Istanbul / Turkey
Commencement: September, 2024

Project Name:
Kumport Current Pier-3 Repair and
Strengthening Work

Project Name: Mersin Nuclear Power Plant
Client: DGN Marine
Scope: Supply of backhoe dredger
Location: Mersin / Turkey
Commencement: August, 2024

MARITIME ENGINEERING

TECHNICAL CONSULTANCY WORKS

CLIENT	WORK	SCOPE OF WORK	LOCATION
1. KARADENİZ HOLDİNG	Owendo Dredging	Consultancy for dredging works Survey engineering service Supply of survey equipment Bathymetry	Owendo, Gabon
2. KARADENİZ HOLDİNG	Mooring and Breasting Dolphins	Design of Mooring and Breasting Dolphins for Karpower Floating Plants Controlling site works Survey engineering service	Owendo, Gabon
3. KARADENİZ HOLDİNG	Abidjan Port Survey Works	Bathymetry	Abidjan, Ivory Coast
4. YUKSEL SAUDIA	Survival Training Center Modernization	Supply of marine survey equipment Survey engineering service Bathymetry Supply of tide gauge	Dammam, Saudi Arabia
5. ALBAYRAK	Dredging Works	Preparation of dredging method, budget, work schedule for Trailing Suction Hopper Dredger	Turkey
6. ALBAYRAK	Breakwater Construction	Preparation of method of construction, budget, work schedule Design support Marine equipment supply	Şile, Turkey
7. MEYER FLOATING SOLUTIONS	Reef Village Floating Villas	Preparation of method of construction, budget, work schedule Design support Marine equipment supply	The Red Sea, Saudi Arabia
8. MEYER FLOATING SOLUTIONS	Ocean Cay Pier Extension	Preparation of pile driving analysis, method of construction, work schedule and budget for the floating villas	Ocean Cay, Bahamas
9. MEYER FLOATING SOLUTIONS	Great Stirrup Cay Pier	Preparation of method of construction for floating pier Ballast calculation for sinking and floating caissons Preparation of budget, work schedule, manpower and equipment plan, etc	Great Stirrup Cay, Bahamas
10. MEYER FLOATING SOLUTIONS	Napoli Floating Pier	Preparation of method of construction for pier extension and installation of floating piers Preparation of budget, work schedule, manpower and equipment plan, etc	Napoli, Italy
11. METAG	Hobyoy Port	Preparation of tender dossier for Hobyoy Port consisting x-bloc based breakwater, piled jetties, dolphins, dredging, crowne wall, etc Preparation of method of construction, material supply plan, etc	Hobyoy, Somali
12. OBRASCON HUARTE LAIN (OHL)	The Fehmarnbelt Tunnel	Preparation of tender dossier for Fehmarnbelt Immersed Tunnel Project	Denmark–Germany
13. ARAS MARINE	Sfax Desalination Project	Pile driving analysis for cofferdam consisting sheetpiles and steel tubular piles Preparation of method of construction Supply of piling equipment	Sfax, Tunisia
14. ERKPORT	TSHD Vessel	Providing technical consultancy for Trailing Suction Hopper Dredger owned by Erkport	Turkey
15. VALO AVIATION	Bahrain Airport Hangar	Providing technical consultancy for construction of business jet hangar in Bahrain Airport. Preparation of budget Managing suppliers and vendors Cost control Production control	Bahrain
16. ERDAÇ DENİZ	Spud Barge	Design and production support for modification of Erdaç flat barge	Turkey
